WAREHOUSE WORKER

HMSHost Arlanda flygplats | Juni 2019 - februari 2020

Worked at the warehouse at Arlanda Airport. Worked extensively with people and collaborated. Packing, driving forklifts, and light trucks.

PROFILE

My name is Wilma and I'm a frontend developer. I will graduate in May 2024 from Medieinstitutet in Stockholm. I am a responsible person and driven in development. What I like most about my work is tackling new challenges and solving problems.

I became interested in programming during my high school years and have since completed both .NET System Development at Nackademin and now also Frontend Development at Medieinstitutet. Of these two, frontend development is what I am passionate about and prefer to work with!
